

ABOUT

Hi, my name is Victor, a.k.a Lóris, and i'm a software developer.

With a little more than 4 years of experience in the area, currently I'm working with Java, Spring Boot and Camunda BPM.

My actual goal is contribute with my team, using my knowledge to develop solutions and services.

I have enough facility to learn processes, I adapt well to changes, I always try to do everything calmly and trace the best ways to reach the final goal.
